**Hapro**  
Roof boxes

Cruiser, overwhelming space.

# LARGE, LARGER, LARGEST.

*Cruiser. Overwhelmingly spacious.*

Roof boxes come in all shapes and sizes, but if you're looking for a lot of extra luggage space, the Cruiser is the roof box for you. What can I take along with me and what must I leave at home? With the Hapro Cruiser, you no longer have to decide what to take and what to leave behind. With an overwhelming capacity of no less than 600 litres, you can take everything along! It's the perfect solution if you're looking for ease of use and additional luggage space. Are you ready to expand your life?

# A STAR IN SPACE.

*For all extra luggage you can think of.*

You can go wherever you want. You can take with you whatever you want. And not at the expense of other benefits. The Hapro Cruiser is a real star, not only when it comes to space, but also looks, functionality, quality, safety and ease of use. So you can start your journey without having to leave anything at home.

# HOW LARGE DO YOU NEED IT TO BE?

*The Cruiser offers it all.*

This roof box has all the space that you could need. It's the largest in its class, so no matter how much space you need, the Cruiser will come through.

**SAFETY ABOVE ALL.** The Hapro Cruiser offers more than just good looks, space and comfort – when it comes to safety, there are no concessions. The Nordic has undergone thorough testing in the toughest of conditions, including city crash tests, stability tests, vibration tests, water tests, and aerodynamic simulations. And the result? The Hapro Cruiser endures whatever is thrown at it, and comes with TÜV certification.

**Material and colour:**  
The strong and shock-resistant ABS/PMMA synthetic materials of the Hapro Cruiser are highly UV-resistant.

**Opening:**  
Loading and unloading the Cruiser is simple due to the double function of the dynamic spring struts. It opens the lid and keeps it in its optimum position while loading. When closed they pull the lid to the base of the roof box for a perfect seal.

**Opening²:**  
The Cruiser can be opened on both sides. An extremely comfortable feature, allowing maximum ease of loading and mounting.

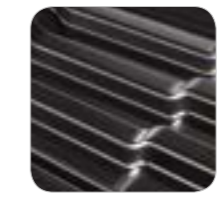

**Available colours:**  
The Cruiser is available in two colours, Brilliant Black and Anthracite.

**Mounting:**  
The unique patented Premium-Fit guarantees a quick, secure and easy mounting of the roof box.

The exclusive central locking system is a feature that locks the box securely and tightly in three places - in one movement. As an additional safety measure the key can only be removed if the roof box is locked in the correct manner.

**Locking:**

**Reinforcement base:**  
The metal reinforcement rails over the entire length of the bottom provide strength and stability.

# START PACKING.

*as if you have an extra car...*

## A SEA OF SPACE.

If you're heading off on a family holiday to the coast, you'll want to make sure you pack your tent, beach gear and inflatable boat. With the Cruiser and the sea of space that it offers, you'll have no worries about space. And if you're heading up the mountains for some winter fun, the Hapro Cruiser can easily accommodate 10 pairs of skis, as well as accessories! This robust roof box can carry as much as 75 kg, and with its stylish contours, the Cruiser will make sure that you arrive at your holiday destination in style.

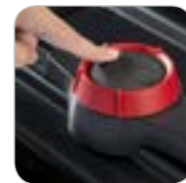

# IN A JIFFY.

*The unique mounting of the Cruiser.*

The unique patented Premium-Fit is a complete, one-piece unit. No hassle with separate clamps or other accessories. The Premium-Fit allows a quick, easy and above all, a safe mounting of the roof box. Mounting and removing the roof box is done with a simple and smart turn of the rotating knob, which deploys special clamps around the roof rack. The reassuring ratchet noise tells you exactly when the roof box is securely fixed to the roof bars. Due to its limited height, the Premium-Fit system allows for even more space for your luggage.

# SAFE AND SECURE.

*Welding would be the lesser option..*

The Cruiser is attached to the roof racks with four Premium-Fits that can be shifted separately. Each one centers itself on the roof rack, which makes the Premium-Fit a perfect fit for any roof rack system with a maximum width of 95 mm. The clamps are covered with a synthetic material for extra grip and to protect the roof rack. Of course the Premium-Fit system has been thoroughly tested. The roof boxes are certified following the strict ISO 11154 and TÜV safety regulations.

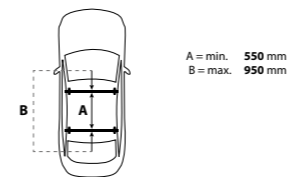

# SPECIFICATIONS.

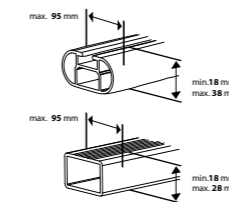

*All ins and outs.*
